£480

CPD UNITS 8

This interactive course will help you identify and interpret meaningful accounting information and key value drivers critical to decision making. It also demonstrates how to produce relevant reports for internal and external audiences.

**KEY FEATURES**

- financial information – inter-relationship and key messages
- balance sheet – assessing financial condition
- income statement – exploring margins and profit to cash conversion
- cash flow statement – appraising the sources and uses of cash
- analysis – pinpointing signals, ratios and trends in key drivers.
